It's Book Release Day!

[The Nexus Season One: Unseen World](#) drops TODAY!

This box set (or omnibus print edition) contains all 9 books of The Nexus Season One, plus a bonus short(ish) story. In keeping with the structured-like-a-TV-show theme, I'm calling these the Binge Box and the Binge Book respectively--because you can binge the whole season!

The regular price for the Binge Box is \$9.99, but I'm keeping it at the preorder discount of **\$7.99 for one more week**--grab it at this price while you can! The discount price is good at both Amazon and Barnes & Noble!

I've also dropped the price on the Binge Book from \$24.99 to **\$19.99 for this first week**. Unfortunately, I can only do this lower price on Amazon, not Barnes & Noble, because BN has a higher base price and \$19.99 is below the minimum price.

Thanks for checking it out! See you next week for the regular biweekly newsletter!
